

Space Gardens with growing plants made out of recycled materials Juniors - 5 and 6 year olds Self-Assessment

		 	  
I have drawn a picture of what I want my space garden to look like when it is finished			
I have drawn a picture of the materials I will use to make my space garden			
I have written the word under the picture for each of my materials			
I have written a set of instructions (procedure) to make the space garden I have designed			
My space garden is no more than 50 cubic centimetres			
My space garden has at least three growing plants in it			
I have made sure that my space garden can be transported to school easily			
I have written down the tricky bits I had to get an adult to help me with			
I enjoyed making my space garden			
I have included a photo of my finished space garden
